EMBARGOED FOR RELEASE ON JANUARY 5, 2025
NICE, FRANCE, DECEMBER 9, 2024

AQUALUNG GROUP LAUNCHES A GROUNDBREAKING DIVE REGULATOR AT CES 2025

Aqualung Group is launching a disruptive underwater breathing system called Aquasense at CES 2025. Thanks to a wireless data communication system connected to the Pulsa dive computer, Aquasense provides respiration information and real-time support for the diver, making underwater exploration more accessible. Our solution received the "Best of Innovation" title at the CES Innovation Awards® 2025.

A whole new diving experience for experienced and amateur divers alike

Aqualung Group will launch an underwater breathing system called Aquasense at CES 2025. Designed for experienced divers and beginners alike, this next-generation electronic and connected dive regulator offers real-time support to the diver with on-screen guidance during the dive. In addition, divers can improve future performance by accessing detailed dive data after each excursion. Linked to the cutting-edge Pulsa dive computer and the all-new Aqualung App, Aquasense keeps the diver connected to their dive group and the surface, ensuring every moment is shared and every dive safer and unforgettable.

Aquasense

The 1st electronic and connected dive regulator

Connected to the cutting-edge **Pulsa** dive computer and the new Aqualung App

Key features include respiratory information and alerts such as LEDs, breathing, dive position and pressure monitoring, and wireless communication system.

Aquasense by Aqualung will be available at retailers and dive centers by the third quarter of 2025 at an RRP of \$1399 (1299 €). The solution will feature:

- A long-lasting battery that offers up to one week of intensive autonomous diving
- Advanced integrated technologies: Aqualung sonar under-water communication, a 32bit platform, Blackbox, Master Breathing System, Auto Closure Device, Freezing resistance...
- 8 sensors

The Best of Innovation Award

The product of 4 years of R&D, with 6 patents pending, the solution has been honored with the prestigious Best of Innovation award at the 2025 CES Innovation Awards®2025. The CES Innovation Awards program is an annual competition honoring outstanding design and engineering in 33 consumer technology product categories. An elite panel of industry expert judges, including members of the media, designers, engineers,

and more reviewed submissions based on innovation, engineering and functionality, aesthetic, and design. The CES Innovation Awards® 2025 program received over 3400 submissions – a new record. Those with the highest rating receive the “Best of Innovation” distinction.

Ensuring accessible oceans for future generations of divers

While the company intends to encourage underwater exploration by making diving more generally accessible, environmental protection is also at the core of their mission:

“The ocean is the planet's lungs, generating more than 50 percent of the oxygen essential for all life- and the ocean's ecosystems are deteriorating at an alarming rate. By enhancing communication and monitoring, as well as boosting safety, our innovative solution will make the underwater exploration easier and accessible to more divers.” says Michel Abaza, Chairman & CEO of Aqualung Group. *“This will allow more people to explore and fall in love with this fascinating environment, inspiring a deeper commitment to its protection.”*

Discover Aquasense by Aqualung at CES 2025

Aqualung will be in Las Vegas from January 7th to 10th to showcase their solution at CES 2025. Meet the company at the French Pavilion in Eureka Park at booth No. 60615-10 and see their technology or contact us to arrange a meeting at your earliest convenience.

About Aqualung Group

Aqualung Group pioneered the creation of modern diving equipment in 1943 when Captain Cousteau teamed with engineer Émile Gagnan to develop the first “aqua-lung” breathing system that made underwater exploration possible.

Today, the Group continues to be the leading global designer and manufacturer of dive gear. With our brands, Aqualung, Apeks and Aquasphere, our products are available in 100 countries around the world. Aqualung Group is also the specialist of best-in-class solutions for Military and Professional missions.

About Business France

Business France is the public consulting business serving the international development of the French economy. It is responsible for fostering export-led growth by French businesses, as well as promoting and facilitating foreign investment in France.

It promotes France's firms, business image and nationwide attractiveness as an investment location, and also runs the VIE international internship program.

Business France has more than 1,400 personnel, both in France and in 53 countries throughout the world.

In 2023, support from Business France made it possible to generate €3.3 billion in additional export revenues for French SMEs and mid-size companies, accounting for more than 27,111 jobs created or planned. Business France supported 58% of the 1,815 foreign investment decisions in 2023, accounting for 67% of the 59,254 jobs created or maintained nationwide.
